

Please don't let LPFM stations take priority over current FM translator service. I listen to K-LOVE, a station that will be greatly affected by this decision. K-LOVE offers an incredible public service as their music and programs are uplifting, inspiring, and have helped many to conquer addictions, seek further counseling for past abuse, and have even stopped people from committing suicide. K-LOVE has been a true blessing in my life. I urge you to reconsider. Thank you, Anastasia L. Schuster
